MEMORANDUM

DATE: Junction City TSP Citizen Advisory Committee

TO: John Bosket, PE

FROM: September 18, 2012

SUBJECT: Junction City TSP Update
Follow-up on Mission, Goals, and Policies Update

P09042-010

As part of Junction City's Transportation System Plan update, we will be revisiting the mission, goals, and policies related to transportation to ensure they continue to align with the community's interests. This will be an ongoing effort throughout the project, but early feedback will help guide the plan in the right direction.

At our first Citizen Advisory Committee (CAC) meeting on August 4, 2011, we spent some time discussing the mission, goals, and policies documented in the city's current Transportation System Plan. In addition to the initial input you provided, we asked that you engage with your neighbors and constituencies to hear their interests related to transportation and the community values they feel should be protected.

This memorandum is intended to remind you of the feedback you had provided (see below) and to come prepared with any other input you've obtained since our last meeting. I look forward to continuing this process with you and thank you for your time and effort.

Preliminary Transportation Goal Topics and Areas of Interest (provided by the CAC on August 4, 2011):

- Provision of a fully connected sidewalk system
- Providing walkable school zones
- Mitigating barriers created by railroads for the elderly
- Improving coordination among jurisdictions (to avoid problems such as the recent need to protect the historical cemetery from transportation-related impacts)
- Support business development by providing an easy and predictable path forward
- Safety – specifically improving difficult OR 99 crossings between 18th and 10th and children crossings on OR 99
- Regional bus service – there used to be bus service to Monroe and Corvallis
- Safe Routes to School – there is no way walk or bike between the High School and Middle School
